DETAILED ACTION

Oath/Declaration

Claims 1-16 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The sole error cited in the declaration is "Incorrect inventors listed..." (Applicants are attempting to remove one of the inventors listed on Patent 6,561,991.)

"Whenever through error a person is named in an issued patent as the inventor, or through error an inventor is not named in an issued patent and such error arose without any deceptive intention on his part, the Director may, on application of all the parties and assignees, with proof of the facts and such other requirements as may be imposed, issue a certificate correcting such error." (see 35 U.S.C. 256 Correction of named inventor)

"While reissue is a vehicle for correcting inventorship in a patent, correction of inventorship should be effected under the provisions of 35 U.S.C. 256 and 37 CFR 1.324 by filing a request for a Certificate of Correction if:

(A) the only change being made in the patent is to correct the inventorship; and

(B) all parties are in agreement and the inventorship issue is not contested." (see MPEP 1412.04)

In order to use a reissue to delete an inventor, applicant needs to establish reasoning why a Certificate of Correction will not suffice. Absent such reasoning, simply altering the inventorship is not considered an error upon which a reissue can be based.

Applicant needs to either change the inventorship through a Certificate of Correction or supply proof that demonstrates applicant is barred from using a Certificate of Correction (namely, documentation that all parties are not in agreement and the inventorship issue is contested).
